## ABSTRACT

*The Brains that pull the Triggers. 1st Conference on Syndrome E, Paris IAS, 28-29 April 2015 - Session 4 - The Individual and the Group: Mechanisms of Group Contagion*

### Minimal group procedure

Here we assigned participants to their group using drawing lots

You belong to the Green Group

You belong to the Blue Group

Participants' levels of identification, appreciation, pride of belonging to and commitment toward the group were higher toward in-group as compared to out-group members (all ts(19) > 2.60, all  $p$  < 0.02).
